Introduction

Surveys of all the local centres have been carried out in the Borough of Wandsworth on a biennial basis since 1988. The last survey was carried out in 2016. The survey collected information on all ground floor units within the protected frontages in the local centres (core and secondary shopping frontages and protected other frontages). Details of the occupier, use and use class were collected enabling changes in the number of units and use class to be monitored over time. The local centre boundaries used in this report include all the shopping frontages detailed in the Council's adopted Local Plan, 2016.

Use Classes Order

The use classes stated in the report are those identified in the Town and Country Planning (Use Classes) Order 1987, as amended. The A1 retail class is broken down into A1C (Convenience) units such as grocers, bakers, butchers, greengrocers, newsagents; A1D (Durable – also called comparison goods) such as clothes, electrical goods, furniture, DIY stores and A1S (Service) units such as hairdressers and photo processing shops. Vacant units are identified by their use class e.g. A1V is a vacant retail unit, A3V is a vacant restaurant/café and B1V is vacant office. Internet cafés are categorised as A1 in this report unless internet provision is ancillary to other uses. For example, a café with only a few computers would be classed as A3.

Permitted Development

Recent changes to Permitted Development rights have meant that fewer types of development now require planning permission. This includes change of use away from shops and related town centre uses to residential use and other uses such as schools. At the same time, the Government acknowledges that sufficient shopping facilities must be maintained to serve the needs of the local population and therefore permitted development rights do not apply to identified key shopping parades. In Wandsworth these have been defined as the protected core and secondary shopping frontages, and other frontages in town and local centres, and the Important Local Parades. The Council has put in place Article 4 directions to ensure that proposals affecting public houses and bars are subject to planning permission, and to restrict permitted development rights in the core and secondary frontages, and the Important Local Parades to change from a shop (A1 use) to a financial and professional services (A2) use. These will come into force in August 2017. In the interim, a degree of care must be taken in interpreting policy performance shown in the survey results, as some changes of use may have occurred through permitted development.

The Local Centres

There are 9 local centres dispersed throughout the Borough, which together with the town centres and Important Local Parades provide easy access to day to day shopping facilities for the majority of residents and workers. The information on local centres is broken down into core shopping frontages, secondary shopping frontages and protected other frontages. This format enables the role of each

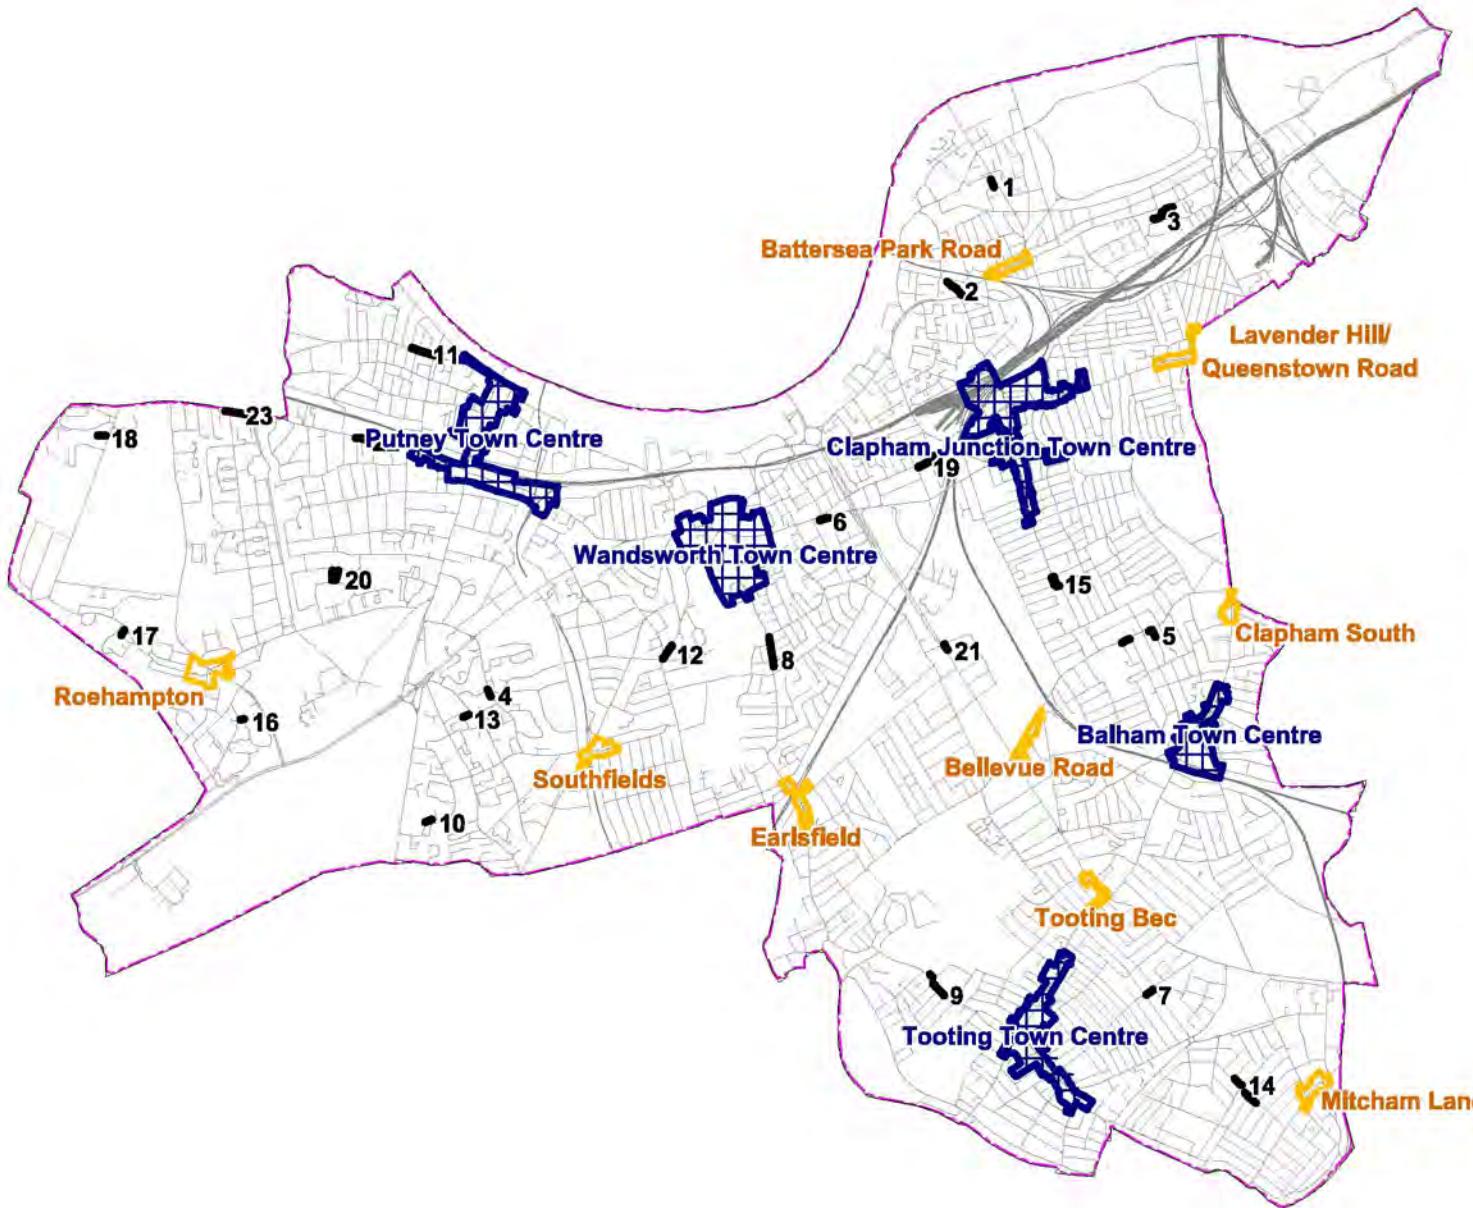

shopping frontage to be monitored. Protected core shopping frontages are defined in the Council's Local Plan policies as being key areas in terms of shopping function, containing a high proportion of retail use; protected secondary shopping frontages are defined as playing an important complementary shopping role, containing a mix of retail, non-retail and other services appropriate to a shopping frontage; protected other shopping frontages are defined as playing a subsidiary shopping role and these frontages also contain non-retail uses compatible to the functions of the shopping centre. DMPD policies DMTS3-4 set minimum thresholds of 70% and 50% of A1 units being retained in core and secondary shopping frontages respectively, and requires the remaining units to be an appropriate A class use, whilst policy DMTS5 protects other frontages for complementary uses and requires that any proposed use must be an appropriate town centre use.

Headline Results

The local centres vary widely in size and function and have largely retained their level of retail use and low vacancy rates. There is a wide variation in the fortunes of these parades, but the combined survey results do help identify general trends. Overall, the proportion of A1 uses has fallen gradually - from 57% in 2002 to 49% in 2016. The proportion of A1C (Convenience) food shops has remained steady since 2014 - from 16% of all units to 15% in 2016 but also continues a gradual decline over the longer term. Whilst the proportion of vacant units does vary between the local centres (between 18% in Tooting Bec to 2% in Bellevue Road), the proportion of total vacancies across all local centres has improved from 11% in the 2014 survey to 8% in 2016. In the longer term both the total vacancies and A1 vacancy rates have been reducing.

231 Wimbledon Park Road was incorrectly recorded as D2 in the 2006, 2008 and 2010 Local Centres Surveys. The use was reverted back to A2V for these years in the 2012 Local Centre Survey.

Unit 227 was added in 2014.

Units 227 and 229 had been amalgamated at the time of the 2016 Survey.
