## **Introduction**

There are 5 town centres in the Borough: Balham, Clapham Junction, Putney, Tooting and Wandsworth. Surveys of all the town centres have been carried out on a biennial basis since 1988. The last survey was carried out in 2016. The survey collected information on all ground floor units within the shopping frontages in the town centres. Details of the occupier, use and use class were collected enabling changes in the number of units and use class to be monitored over time. The town centre boundaries used in this report include all the shopping frontages detailed in the Council's adopted Local Plan, 2016. Market stalls in the covered markets (Tooting Market and Broadway Market) are included in the survey and are counted as individual units.

The information is broken down into core shopping frontages, secondary shopping frontages and protected other frontages. This format enables the role of each shopping frontage to be monitored. Protected core shopping frontages are defined in the Council's Local Plan policies as being key areas in terms of shopping function, containing a high proportion of retail use; protected secondary shopping frontages are defined as playing an important complementary shopping role, containing a mix of retail, non-retail and other services appropriate to a shopping frontage; protected other frontages are defined as playing a complementary shopping role, these frontages also contain a range of town centre uses. DMPD policies DMTS3-4 set minimum thresholds of 70% and 50% of A1 units being retained in core and secondary shopping frontages respectively, and requires the remaining units to be an appropriate A class use, whilst policy DMTS5 protects other frontages, supports complementary uses and requires that any proposed use must be an appropriate town centre use.

## **Use Classes Order**

The use classes stated in the report are those identified in the Town and Country Planning (Use Classes) Order 1987, as amended. The A1 retail class is broken down into A1C (Convenience) units such as grocers, bakers, butchers, greengrocers, newsagents; A1D (Durable – also called comparison goods) such as clothes, electrical goods, furniture, DIY stores and A1S (Service) units such as hairdressers and photo processing shops. Vacant units are identified by their use class e.g. A1V is a vacant retail unit, A3V is a vacant restaurant/café and B1V is vacant office. Internet cafés are categorised as A1 in this report unless internet provision is ancillary to other uses. For example, a café with only a few computers would be classed as A3.

## **Permitted Development**

Recent changes to permitted development rights have meant that fewer types of development now require planning permission. This includes change of use away from shops and related town centre uses to residential use and other uses such as schools. At the same time, the Government acknowledges that sufficient shopping facilities must be maintained to serve the needs of the local population and therefore permitted development rights do not apply to identified key shopping parades. In Wandsworth these have been defined as the protected

core, secondary and other frontages in town and local centres, and the Important Local Parades. The Council has put in place Article 4 directions to ensure that proposals affecting public houses and bars are subject to planning permission, and to restrict permitted development rights in core and secondary frontages, and in the Important Local Parades to change from a shop (A1 use) to a financial and professional services (A2) use. These will come into force in August 2017. In the interim, a degree of care must be taken in interpreting policy performance shown in the survey results, as some changes of use may have occurred through permitted development.

### **Headline results - all town centres**

The town centres vary in size and have largely retained their level of retail use and low vacancy rates. The total number of units across all the protected frontages shows little change over the longer term, totalling 1435 units in 2016, compared to 1413 in 2014, and 1441 in 2004. The overall proportion of retail (A1) use across all the protected parades in all 5 town centres was 57% in 2016, the same as recorded in 2014, slightly down from 61% in 2004. Similarly the combined vacancy rates across all the protected parades in all 5 town centres remains consistently low, at 8% in 2016, 6% in 2014 and 7 % in 2004. The combined retail (A1) vacancy rate was also low at 5% in 2016, compared to just 4% in 2014 and 4% in 2004.

### **Headline results – Putney**

The overall proportion of retail (A1) use across all the protected parades in Putney town centre has remained steady at 57% in 2016, the same rate since at least 2004, apart from 2010 where 58% of all units were recorded in A1 use. The combined vacancy rate (all uses) has remained low – generally between 4-7% since 2004 - but has increased to 8% in 2016, however 12 of the 26 total vacant units were undergoing refurbishment. Retail (A1) vacancy rates in Putney's protected frontages remain low and reasonably steady including over the longer term, however this rate increased from 4% in 2012 and 2014 to 5% in 2016 and whilst still low, is the highest rate recorded since at least 2004.

The units in the Putney Exchange were incorrectly numbered prior to the 2014 Survey.

Therefore the sum of units in previous years shown above may not reflect the total due to the re-numbering and re-ordering of units.

However, the total numbers remain unchanged to allow comparison.

Unit 12 had been removed from the Putney Exchange at the time of the 2016 Survey.

Units 27 and 28 had been amalgamated at the time of the 2016 Survey.

96, 98 and 102 Putney High Street were amalgamated at the time of the 2016 Survey.

Further these units became part of the Putney Exchange and had been merged with the Unit 36 of the shopping centre.

Therefore the use of these units mentioned as one unit only in the section of the "Core Frontages - Ground Floor, Putney Exchange" in order to avoid repetition.
