## **Introduction**

Surveys of all the Town Centres have been carried out in the Borough of Wandsworth on a biennial basis since 1988. The last survey was carried out in 2014. The survey collected information on all ground floor units within the shopping frontages in the Town Centres. Details of the occupier, use and use class were collected enabling changes in the number of units and use class to be monitored over time. The Town Centre boundaries used in this report include all the shopping frontages detailed in the Council's 2<sup>nd</sup> Proposed Submission Version of the Local Plan, October 2014. Market stalls in the covered markets (Tooting Market and Broadway Market) are included in the survey and are counted as individual units.

The information is broken down into core shopping frontages, secondary shopping frontages and other shopping frontages. This format enables the role of each shopping frontage to be monitored. Protected core shopping frontages are defined in the Council's Local Plan policies as being key areas in terms of shopping function, containing a high proportion of retail use; protected secondary shopping frontages are defined as playing an important complementary shopping role, containing a mix of retail, non-retail and other services appropriate to a shopping frontage; other shopping frontages are defined as playing a subsidiary shopping role, these frontages also contain non-retail uses compatible to the functions of the shopping centre.

## **Use Classes Order**

The use classes stated in the report are those identified in the Town and Country Planning (Use Classes) Order 1987, as amended. The A1 Retail Class is broken down into A1C (Convenience) units such as grocers, bakers, butchers, greengrocers, newsagents; A1D (Durable – also called comparison goods) such as clothes, electrical goods, furniture, DIY stores and A1S (Service) units such as hairdressers and photo processing shops. Vacant units are identified by their use class e.g. A1V is a vacant retail unit, A3V is a vacant restaurant/café and B1V is vacant office. Internet cafés are categorised as A1 in this report unless internet provision is ancillary to other uses. For example, a café with only a few computers would be classed as A3.

The units in the Southside Shopping Centre were incorrectly numbered prior to the 2014 Survey. Therefore the sum of units in previous years shown above may not reflect the total due to the re-numbering and re-ordering of units. The total numbers remain unchanged to allow comparison. All percentages are of the total number of units.

JD Sports is now a vacant unit and will be counted as Unit 2 on the Ground Floor of the Shopping Centre.

Unit 16 was a new unit at the time of the 2014 Survey.

The first floor was re-developed and re-opened in 2004.

All percentages are of the total number of units.
