

**Process-specific parts of Part B Application form for
dry cleaners**

About the installation

B1.2. Please attach a plan of the premises showing the location of:

- (a) the premises
- (b) where the dry cleaning machine(s) will be installed
- (c) where the dry cleaning solvents will be stored
- (d) where the dry cleaning residue will be stored
- (e) any drains within the installation and in the immediate area of the installation which may be affected as a result of any potential Volatile Organic Compound (VOC) release from the dry cleaning operations

B1.3. Please supply a description of the location and methods of storage of:

- (a) dry cleaning solvents
- (b) dry cleaning residue

B1.4. Make, model name/number, serial number, load capacity, date of installation and type of dry cleaning solvent used.

Make	Model	Serial number	Load capacity	Date installed	Dry cleaning solvent

B1.5. Provide details, including a schedule, of checking and maintenance procedures for each machine. This should include the machine manufacturers' recommended operating procedures, checking and maintenance requirements and any other additional procedures undertaken by the operator. (This should be submitted in a form of a list of the activities carried out and their frequencies. For additional guidance see Section 3, paragraph 3.14 of PG6/46(04)).

B1.6. Provide details of any other activities carried out within the dry cleaning installation which involve the use of organic solvents in particular spot clean solutions, water-proofing solutions and any other solvents or solvent borne preparations.

B1.7. Provide details on the training and relevant qualifications regarding operating and maintaining the dry cleaning machine in accordance with this guidance.

B1.8. Specify how the product will be weighed and recorded weekly and annually.

B1.9. Provide details how the mass or volume of solvent used will be determined and recorded weekly and annually (due to the low use spot cleaning solvents they need only to be determined annually).

B2.0. Risk Phrase Solvents At the time of writing and in the future it is believed unlikely that these materials will be used within the dry cleaning industry. (*Details of the risk phrases of the materials used can be found on the original suppliers packaging and in the Materials Safety Data Sheet (MSDS) for the product.*) Are any substances or preparations which because of their VOC content are required carry one or more of the following risk phrases used within the installation:

- R45 - May cause cancer
- R46 - May cause heritable genetic damage
- R49 - May cause cancer by inhalation
- R60 - May impair fertility
- R49 - May cause harm to the unborn child.

Yes	No

If **Yes**, provide full details of how and why these risk phrase materials are used and how the requirements of the EU Solvent Emissions Directive on substitution, control and limiting of emissions of risk phrase materials will be met.
