Wandsworth Adult Social Care Annual Report 2018-2019

This report highlights the achievements and challenges over the last year. Our aspiration is to “deliver the best for residents” and support our residents in staying as independent as possible.

When people become less independent or unwell, we want to ensure they can access care and support at the right time and in the right place.

We do this by supporting people at home or in a home-like setting wherever possible and having positive conversations about what they can do for themselves and their ambitions, rather than focussing on what is not going so well in their life. We will work in partnership with residents, their families and local communities to find solutions before introducing council services.

3975

residents supported by Adult Social Care in 2018-2019

So how did we do?

94% of people needed less care or no care at all after receiving an enablement service

69% of people say they find it easy to find information about care and support

97% of people had their desired safeguarding outcome met

87% of people say that our services helped to make them feel safe and secure

78% of people say they have control over their daily life

3030
people supported
in their own home

How we support our residents

3,975 people assisted with care and support packages

691 carers were supported
