In the event of any emergency please dial 999

What does this service provide?

Our services are agile and flexible so we can meet your needs. Staff members will develop a support plan and risk assessment for you and your children, should you have any.

Staff members include:

- Refuge Support Workers who will develop a support plan with you and provide an environment where you feel safe.
- A Children & Families Worker who can assist with accessing school and nursery places and work with the whole family to move forward with your recovery.
- A Housing Officer who will help you access accommodation for when you leave the refuge.

The refuge also runs social activities, workshops and opportunities for learning, training or volunteering.

Both services are open from 9-5PM, Monday to Friday
