The Residents
The Platt Estate

Date: 28th January 2025

Dear Resident,

Re: The Platt Estate – Parking Bay Suspension

The new council homes scheme is progressing steadily and as part of work to create additional parking spaces, UKPN will be attending to disconnect and reconnect power supply to the existing lamp column to enable it to be relocated. This will involve the 3 bays closest to the column being suspended from 7am on 10th February 2025 to 5pm on 14th February 2025 to allow access for these works to be carried out.

Please see drawing overleaf showing the exact location affected. We apologise for the inconvenience this may cause and thank you for your continued patience whilst these works are completed. Please do contact Helix Construct site team should you have any queries. Contact details listed below.
