

Candidate Name: Theo Hall

Age: 15

Connection to the Borough: Student at Saint Cecilias School, live in Southfields (Wandsworth)

My name is Theo Hall, and I am delighted to announce that I will be running for youth mayor in the London borough of Wandsworth for 2025.

As a resident and a student of a school in this borough, I truly believe that young people have the power to make positive change if we work together. Through polling students at my school, I have heard with my own ears the problems and issues that young people struggle with in this borough. If voted in as youth mayor, I can amplify our voices to make sure that our needs are being taken into account when shaping a fairer, greener Wandsworth.

I want to focus on the issues that matter every day to young people in Wandsworth. The decisions Wandsworth council makes today impact our lives tomorrow. I will make sure your voices are heard.

My key priorities are:

- To campaign to make public transport across the borough a smoother more reliable experience and to make cycling and other methods of active travel a viable method of transport for all young people.
- To make sure every young person is aware they live near a youth club that is accessible to them and to make sure young people feel like that they have interesting activities to do outside of school hours, no matter their background.
- To campaign to make the borough a safer place to travel after dark especially on footpaths that are isolated from roads.

I believe in a Borough that young people can truly call home. A borough that every young person has ample opportunities in and a borough that we all have a say in its future.

Now is your chance to have your say on your future. I ask for your vote and trust as I strive to make Wandsworth a better place for all of us.
